

BANTAY - Blotter Record Import Template (PDF)

How to use: copy one BLOTTER FORM block per blotter record into Word or Google Docs, replace the values after each colon, and write the account under E. SALAYSAY and AKSYONG GINAWA. The labels follow the barangay's paper Blotter Form - keep them exactly as shown, in capitals. Leave a field as "(not stated on page)" if the page does not state it. Export as PDF, then upload on Import Blotter Records.

Every block needs an E. SALAYSAY; blocks without one are skipped. The first block is a filled-in example: replace or delete it before importing. Do not type anything between blocks. KATAYUAN (status) and AKSYONG GINAWA (action taken) are not on the paper form and may be left as they are.

Incident type, PNP classification, and Katarungang Pambarangay referability are filled in automatically, the same as on New Blotter Record. Batch Number and Encoded By can be entered on the import page.
